Product Description:

Our dual row LED light bar is a perfect choice for off-road/fog light/driving light/bar light applications. It is rated for IP67, making it dustproof and waterproof. With a 1 year warranty, it ensures you have a reliable and long-lasting product. It offers lumen output ranging from 3000 to 30000, and can operate in temperatures ranging from -40°C to +85°C. This double row led light bar is designed to provide superior lighting and performance in a variety of conditions. The amber LED light bar provides additional visibility and safety in low-light conditions.

WHY OUR LED LIGHT BAR SO BRIGHT

1 The internal thread reflector can expand the irradiation area and improve driving safety

2 Advanced optical multi angle reflection to maximize light efficiency
