Basic Information

- Place of Origin: China
- Brand Name: Dalilah
- Certification: ce
- Model Number: 1156/1157-2016-120SMD
- Minimum Order Quantity: 100 pieces
- Price: USD4.0~5.0/ PC
- Packaging Details: 2pc/bag, 2X2X2 cm;0.040 kg;
- Delivery Time: 30 days
- Payment Terms: T/T, Western Union
- Supply Ability: 10000 Piece per Month

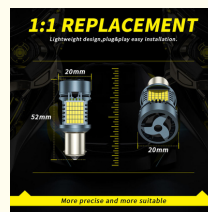

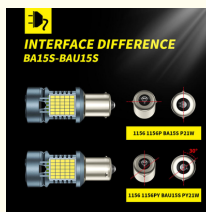

Product Specification

- Lighting Angle: 360 Degree
- Lumen: 100LM/Bulb
- Led Qty: 2016-120SMD
- Model: 1156/1157-2016-120SMD
- Installation: Plug And Play
- Walstage: 20W/Bulb
- Material: ABS Plastic
- Color Temperature: 6500K White
- Keyword: Led Headlight
- Application Temp: -40°C~+85°C
- Led Quantity: 120
- Voltage: 12V
- 1 amp Turn: 1156

Product Description

Product Description:

Illuminate the road behind you with confidence using our premium LED Brake and Turn Signal Lights. These lights are designed to provide you with a superior combination of visibility and longevity, ensuring that your vehicle remains noticeable and safe during braking and turning maneuvers. The LED Brake and Turn Signal Combination is not just a part of your vehicle's lighting system; it's an integral component of your road safety arsenal.

Our LED Brake and Turn Warning Lights are crafted with high-quality plastic materials that are both durable and lightweight. This ensures that they are resistant to the harsh conditions of the road, such as vibrations, shocks, and weather elements, which can cause wear and tear. The plastic housing also serves to protect the advanced LED bulbs inside, making sure that they continue to function at peak performance throughout their lifespan.

The lamp type used in this product is the industry-standard 1156, known for its bright illumination and reliable performance. These lamps have been carefully selected to provide the best possible light output for your vehicle's brake and turn signal lights. The 1156 LED bulbs are designed to emit a crisp, clear light that significantly improves your visibility to other motorists, thereby reducing the risk of accidents. One of the most significant benefits of these LED Turn and Brake Combination Lights is their impressive lifespan of 50,000 hours. This extended duration ensures that you will not have to frequently replace your lights, offering not just convenience but also cost savings in the long term. With 50,000 hours of life, you can expect years of reliable service, keeping you and your vehicle safe on the road day after day, night after night.

We stand behind the quality of our LED Brake and Turn Signal Lights with a comprehensive 1-year warranty. This warranty guarantees

Our Product Introduction

that the product will be free from defects in materials and workmanship for a year from the date of purchase. Should you encounter any issues with the lights during this period, we are committed to providing you with the necessary support to resolve any concerns quickly and efficiently.

Installation of these LED Brake and Turn Warning Lights is designed to be easy and straightforward. The lights are made to fit seamlessly into the existing light sockets of most vehicles, making the upgrade from standard bulbs to our advanced LED technology a simple process. This easy installation not only saves time but also eliminates the need for professional assistance, allowing even those with minimal technical skills to enhance their vehicle's lighting system in a matter of minutes.

Whether you're driving through the bustling city streets or cruising down a lonely highway, the LED Brake and Turn Signal Combination becomes an essential part of your vehicle's communication with the outside world. The bright and long-lasting LED lights ensure your intentions are clear, whether you're coming to a stop or making a turn. They are designed not only to catch the eye but also to withstand the test of time, providing a reliable lighting solution that you can trust.

In conclusion, our LED Brake and Turn Signal Lights are a versatile, durable, and easy-to-install solution for any driver looking to enhance their vehicle's safety and visibility. With an extended lifespan, a solid warranty, and compatibility with the widely used 1156 lamp type, these lights represent a smart investment in your vehicle's functionality and your peace of mind on the road. Upgrade today and experience the difference in clarity and reliability with our top-of-the-line LED Turn and Brake Combination Lights.

Applications:

The Dalilah LED Brake Turn Signal Lights, with their model number 1156/1157, represent a significant advancement in automotive lighting technology. Originating from China, these lights are designed to provide superior visibility and safety for all types of vehicles. The universal application of these LED turn and brake lights means they can be installed on a wide range of car models, making them a versatile choice for drivers everywhere.

Constructed from durable plastic material, the Dalilah LED lights are built to withstand the rigors of daily driving. Each unit is equipped with LED technology, which not only offers a longer lifespan compared to traditional bulbs but also consumes less power. This energy efficiency does not come at the cost of performance, as the LED Brake Turn Signal Lights deliver a brilliant 360-degree lighting angle, ensuring that other road users can clearly see the vehicle's signaling intentions from any direction.

These LED Brake Turn Indicators are perfect for a variety of occasions and scenarios. For instance, during heavy rain or fog, the bright and clear light emitted by these LEDs cuts through the poor visibility, providing a safer driving experience. Furthermore, in the event of an emergency stop, the LED Stop Turn Tail Lights function to alert following drivers promptly, reducing the risk of rear-end collisions.

The versatility of the Dalilah LED Brake and Turn Warning Lights extends to their use in both daytime and nighttime conditions. During the day, the lights are bright enough to be seen even under the glare of the sun. At night, their luminosity is equally impressive, ensuring that turning signals and braking warnings are conveyed with utmost clarity to other road users.

Installation of these LED lights is straightforward, catering to the needs of both professional mechanics and DIY enthusiasts. The universal car model compatibility allows for these lights to be a standard replacement for any vehicle requiring a lamp type 1156, thus providing a hassle-free upgrade from standard bulbs to advanced LED lighting solutions for any driver looking to enhance their vehicle's safety features.

In conclusion, the Dalilah LED Brake Turn Signal Lights are an essential addition for any vehicle owner who values safety, reliability, and performance. Their application is not limited by weather, time of day, or vehicle model, making them an all-encompassing solution for signaling and lighting needs on the road.

Packing and Shipping:

Product Packaging:

Each set of LED Brake Turn Signal Lights is securely packaged in a durable box with custom-fitted foam inserts to prevent movement and damage during transit. The packaging includes a clear plastic window for product visibility and is designed to be retail-ready.

Shipping Details:

Our LED Brake Turn Signal Lights are shipped within 24 hours of order confirmation. They are sent via a tracked shipping service to ensure timely and secure delivery. Customers will receive a tracking number via email to monitor their package's progress. Please note that shipping times may vary depending on the destination and current carrier volumes.

FAQ:

Q: What type of vehicles are Dalilah LED Brake Turn Signal Lights compatible with?

A: Dalilah LED Brake Turn Signal Lights are designed to be universally compatible with vehicles that support the 1156/1157 model number bulb fittings. It's always best to check your vehicle's user manual or existing bulb model number to ensure compatibility.

Q: Can I install the Dalilah LED lights myself, or do I need a professional?

A: Many customers find that they can install the Dalilah LED Brake Turn Signal Lights themselves as they are designed for easy plug-and-play installation. However, if you're not confident in performing the installation yourself, it is recommended to seek professional assistance.

Q: Are the Dalilah LED Brake Turn Signal Lights waterproof?

A: Yes, the Dalilah LED Brake Turn Signal Lights are built to withstand various weather conditions and are waterproof. However, ensure a proper installation to maintain their waterproof capabilities.

Q: How long do the Dalilah LED Brake Turn Signal Lights typically last?

A: LED lights are known for their longevity. While the lifespan can vary depending on usage, Dalilah LED lights generally offer a long service life due to their high-quality construction and LED technology.

Q: Will the Dalilah LED Brake Turn Signal Lights be as bright as my traditional bulbs?

A: Yes, the Dalilah LED Brake Turn Signal Lights are designed to meet or exceed the brightness levels of traditional bulbs, providing clear and bright light for improved visibility and safety.
