Product Description

Product Description:

Illuminate your vehicle's intentions on the road with our high-quality LED Turn Signal Lights, designed to enhance your driving experience by offering superior visibility and safety. Our signal lights are a blend of advanced lighting technology and practical functionality, making them an essential upgrade for any vehicle. With a powerful lumen output of 1750lm, these lights ensure that your turning signals are bright and highly visible, even in adverse weather conditions or during the night.

Our Car Turn Signal Lights are crafted to serve a dual purpose. Not only do they function as turn signals, but they also double as Brake Led Fog Lamps. This feature provides an additional layer of safety, alerting other drivers of your presence and actions, whether you're braking or signaling a turn. The high-intensity light emitted by these lamps cuts through fog, rain, and darkness, ensuring that your vehicle is seen from a distance. The vibrant illumination of these lamps helps to prevent accidents and increases the overall safety of your driving experience.

Installation is a breeze with our Plug And Play setup, which means you won't need any special tools or extensive automotive knowledge to install these lights. Designed to fit General Models, our LED Turn Signal Lights are universally compatible, making them a versatile choice for a wide range of vehicles. Whether you're driving a compact car, an SUV, or a truck, these lights are engineered to integrate seamlessly with your vehicle's existing electrical system.

The package includes 2 X Car Turn Signal Lights, ensuring that you can update both sides of your vehicle for a symmetrical and uniform appearance. The lights are housed in durable, weather-resistant casings that protect the internal components from the elements, ensuring long-lasting performance and reliability. We understand that drivers have different needs and preferences, which is why our

Our Product Introduction

signal lights are designed to cater to a variety of car models and styles.

As Parking Switchback lights, these LED Turn Signal Lights offer the convenience of switching between parking light mode and signal mode, providing versatility and functionality. The switchback feature is particularly useful in situations where you need to park your vehicle temporarily on the side of the road, allowing you to maintain visibility and safety at all times.

Compatibility is not an issue with our universal fitting design. These turn signal lights are equipped to work with a broad spectrum of vehicles, ensuring that regardless of the make or model of your car, you can enjoy the benefits of enhanced visibility and safety. The universal compatibility also means that you can transfer these lights to another vehicle with ease, should you decide to switch cars in the future.

Upgrade your vehicle's lighting system with our premium LED Turn Signal Lights and experience the difference in visibility and safety. Whether you're looking for an improved aesthetic appeal with bright and vibrant lights, or you want the practicality of a Brake Led Fog Lamp and Parking Switchback, our product delivers on all fronts. Drive with confidence knowing that your vehicle is equipped with the latest in automotive lighting technology, designed to keep you safe on the road.

Applications:

The **Dalilah 1156/1157 LED Turn Signal Lights** are the epitome of road safety and vehicle communication, engineered for a wide array of applications and scenarios. These lights, originating from China, are expertly crafted to meet the highest standards of durability and performance, boasting an impressive waterproof rating of IP65. Designed to emit a brilliant 1750 lumens, they ensure that your vehicle is visible in a variety of driving conditions, from the dense fog of early morning commutes to the heavy downpour of a stormy night. As a universal solution, these **LED Turn Signal Lights** are compatible with a broad range of car models, including those from ABG and Abarth, making them a versatile upgrade or replacement for any car enthusiast or professional garage. The Dalilah brand is synonymous with quality and reliability, which is evident in the robust construction and longevity of these lights. Whether you are navigating through busy city traffic or cruising on a long stretch of highway, the **Canbus LED Reverse Brake Turn Signal Lamps** ensure your signaling intentions are clear to other road users. The LED Brake Lights are particularly crucial when it comes to alerting following drivers of a slowdown or stop, providing an extra margin of safety. These LED lights are designed not only for their functionality but also for their contribution to the overall aesthetics of your vehicle, adding a modern touch to its appearance. During festive seasons, parades, or car shows, the Dalilah LED lights can be showcased as a feature that not only enhances safety but also the style of your car. They serve as an essential component during long trips, especially when driving through areas with unpredictable weather conditions. The high lumen output ensures that your car remains visible to others, even in poor visibility. Moreover, since the product is waterproof, drivers can rest assured that their turn signal lights will function flawlessly, irrespective of the weather. Installation of the **Dalilah LED Turn Signal Lights** is straightforward, meaning you can easily upgrade your vehicle's lighting system yourself. Their universal compatibility is a testament to the thoughtful design that aims to cater to a wide audience of car owners. Whether it's for daily use or for special driving conditions, these LED turn signal lamps are an essential investment for any vehicle. The integration of advanced Canbus technology further ensures that these lights are compatible with most vehicle electrical systems, reducing the likelihood of error messages. To sum up, the Dalilah 1156/1157 model is the ideal choice when it comes to enhancing your vehicle's lighting. These lights are not just about making your car look good; they are about ensuring that every turn you make is a safe one. With the **Dalilah LED Headlight** series, you are choosing a product that offers peace of mind, safety, and style, all packaged into one.

Support and Services:

Thank you for choosing our Car Turn Signal Lights. We are dedicated to providing you with high-quality products and exceptional support services. Should you encounter any issues or have questions regarding your product, our Technical Support team is here to assist you. We offer a comprehensive range of services to ensure your product functions optimally. Our support services include:

- Troubleshooting Assistance** - If you're experiencing difficulties with your turn signal lights, our skilled technicians can guide you through a step-by-step process to identify and solve the issue.
- Installation Guidance** - Need help installing your new turn signals? Our experts can provide you with instructions and tips for a smooth installation process.
- Maintenance Tips** - To keep your turn signal lights in top condition, we offer advice on regular maintenance and care.
- Warranty Service** - Our Car Turn Signal Lights come with a limited warranty. In the event of a defect under normal use, we will repair or replace your product in accordance with our warranty terms and conditions.
- Product Information** - For any questions about the specifications, compatibility, or operation of your turn signal lights, our knowledgeable staff is ready to provide you with detailed product information.

Please note that our Technical Support and Services do not include physical repair or installation services. We recommend consulting with a professional mechanic or technician for hands-on assistance with your vehicle. We are committed to your satisfaction and strive to provide exceptional service. For any further assistance, please refer to our contact page for how to reach our support team.

FAQ:

Q: What vehicles are compatible with Dalilah 1156/1157 model turn signal lights?
A: The Dalilah 1156/1157 turn signal lights are designed to be compatible with a wide range of vehicle models. To ensure compatibility,

please check your vehicle's manual or existing bulb model number to see if 1156 or 1157 is suitable for your turn signal light replacement.

Q: Can I install the Dalilah turn signal lights myself, or do I need a professional?

A: Many customers successfully install the Dalilah turn signal lights themselves as it is generally a straightforward process. However, we recommend reviewing your vehicle's manual or consulting with a professional to ensure proper installation and safety, especially if you are not familiar with vehicle electrical systems.

Q: Are the Dalilah 1156/1157 turn signal lights LED or incandescent?

A: Please refer to the specific product details for the type of bulb. The model number 1156/1157 refers to the fitment and design but can be available in both LED and incandescent versions. Confirm the type before purchasing to meet your preference and vehicle requirements.

Q: Where are the Dalilah 1156/1157 turn signal lights manufactured?

A: The Dalilah 1156/1157 turn signal lights are manufactured in China, adhering to high-quality manufacturing standards to ensure reliability and performance.

Q: How long do the Dalilah 1156/1157 turn signal lights typically last?

A: The lifespan of the Dalilah turn signal lights can vary depending on the type (LED or incandescent), usage, and driving conditions. LEDs generally have a longer lifespan compared to incandescent bulbs. Check the product specifications for the estimated lifespan, and always replace turn signal lights in pairs to ensure consistent performance.
