Basic Information

- Place of Origin: China
- Brand Name: Dalilah
- Certification: ce
- Model Number: T10-3014-24SMD
- Minimum Order Quantity: 1000 pieces
- Price: USD1.0~2.0/ PC
- Packaging Details: in box/Bag
- Delivery Time: 30 days
- Payment Terms: T/T, Western Union
- Supply Ability: 10000 Piece per Month

Product Specification

- Model: T10-3014-24SMD
- Light Color: White/Red/Yellow/Blue
- Application Temp: -40°C~+85°C
- Beam Angle: 360 Degrees
- Car Model: General
- Current: 0.063A
- Wattage: 10W
- Lumen: 1000LM/Bulb
- Package: 2 Pieces
- Lightintensity: High
- Lightsource: LED
- Type: T10/ 194/5050/W5W /158 /501/ LED
- Led Qty: 3014-24SMD

Product Description

Product Description:

Illuminate your driving experience with our premium grade Automotive LED Light Bulbs designed for car enthusiasts who demand superior lighting performance. Our Car LED Bulbs are not just an upgrade to your vehicle's aesthetics; they are an essential enhancement for safety and visibility. With a comprehensive 12-month warranty, you can drive with confidence, knowing that your investment in our Automotive LED Lights is protected against any manufacturing defects or performance issues.

Engineered to perfection, our Automotive LED Light Bulbs operate at an efficient 12V, making them compatible with most car electrical systems without the need for additional modifications. This seamless integration ensures that you can enjoy the benefits of our LED lights without any hassle. The innovative technology behind these Car LED Bulbs offers a remarkable improvement over traditional halogen bulbs, providing you with a brighter, more energy-efficient, and longer-lasting light source.

The heart of our product lies in its advanced Lightsource — LEDs of the highest quality. These light-emitting diodes are renowned for their exceptional lifespan, durability, and resistance to shock and vibration. This makes our Automotive LED Lights an ideal choice for drivers who traverse a variety of terrains and encounter diverse driving conditions. With LED technology, you will notice an immediate improvement in your visibility on the road, enhancing your ability to detect obstacles, read signs, and navigate turns safely.

One of the most impressive features of our Car LED Bulbs is their Waterproof rating of IP67. This certification guarantees that our bulbs are completely protected against dust ingress and can withstand immersion in water up to a meter deep for 30 minutes. Whether you're caught in a torrential downpour or driving through waterlogged streets, our Automotive LED Lights will continue to shine brightly, ensuring your path is well-lit and your journey, safe.

Our Product Introduction

Another key attribute of our Automotive LED Light Bulbs is their Beam Angle. With a full 360-degree beam angle, these bulbs provide an omnidirectional light that significantly improves the spread and evenness of light. This wide-angle illumination mimics natural daylight and covers a larger area, reducing shadows and blind spots. The result is a uniform light pattern that greatly enhances night-time visibility and driving comfort. Whether you're navigating through city streets or cruising on a dark, country road, our Car LED Bulbs ensure that you have a clear view of what lies ahead.

Our commitment to quality and performance is evident in every aspect of our Automotive LED Lights. From the meticulous design to the rigorous testing protocols, every bulb reflects our dedication to providing you with the best possible lighting solution for your vehicle. When you choose our Car LED Bulbs, you're not just getting a product, you're embracing an experience that transforms your driving at night and during adverse weather conditions.

In summary, our Automotive LED Light Bulbs offer an unbeatable combination of durability, waterproofing, energy efficiency, and unparalleled illumination. With their 360-degree beam angle, IP67 rating, and robust 12V operation, these Car LED Bulbs are the pinnacle of automotive lighting solutions. Equip your vehicle with our superior Automotive LED Lights and enjoy the peace of mind that comes with a 12-month warranty. Experience clarity, longevity, and reliability like never before, and take the first step towards a brighter, safer driving future.

Features:

- Product Name: Automotive LED Light Bulbs
- Material: Aluminum Alloy
- Waterproof: IP67
- Wattage: 10W
- Lightsources: LED
- Emitting Color: White / Blue / Green / Red / Yellow
- LED Headlight Bulbs
- Car LED Bulbs
- Automotive LED Lights

Technical Parameters:

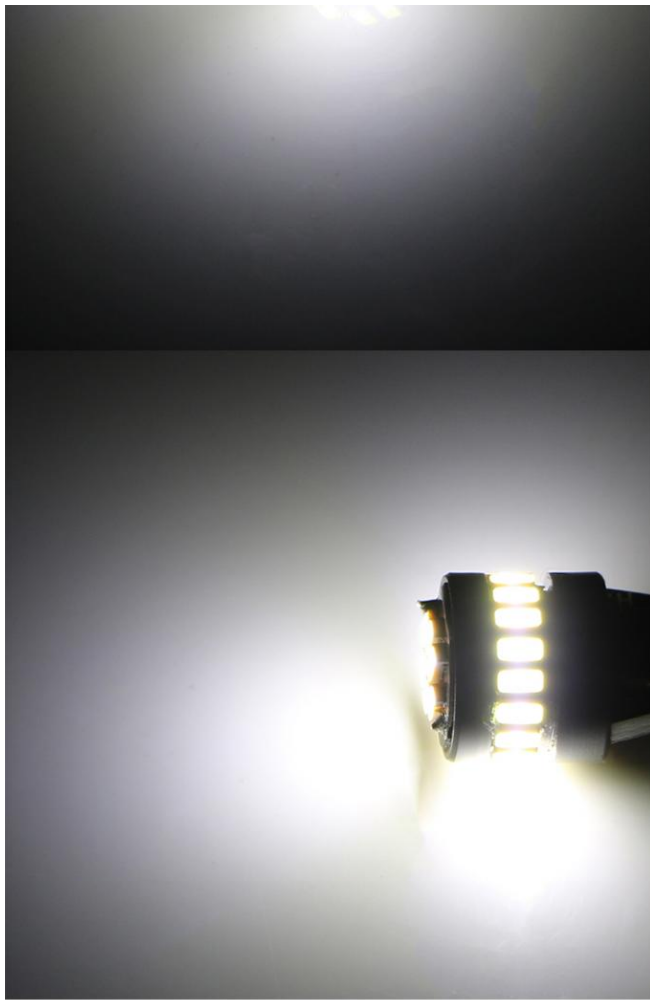

Parameter	Specification
Wattage	10W
Lighting Angle	360 Degree
Voltage	12V
Material	Aluminum Alloy
Led Chip	3014
Warranty	12 Months
Application Temp	-40°C~+85°C
Light Color	White/Red/Yellow/Blue
Lightsources	LED
Lumen	1000LM

3014 Chip

CERTIFICATE

Monthly output:>100,000PCS
Annual sales volume:>260,000USD

Customized OEM	Free sample
Fast Shipping	Fast Shipping
Best Service	Good Review
Testing instruments	Warranty available

COMPANY PROFILE

Applications:

The Dailiah T10 Automotive LED Light Bulbs, originating from China, are a versatile lighting solution designed to enhance the aesthetic appeal and functionality of a wide range of vehicles. These bulbs are equipped with high-quality 3570 LED chips, emitting brilliant colors such as white, blue, green, red, and yellow, catering to the diverse preferences and requirements of car owners. Whether for customization, replacement, or upgrade, the Dailiah T10 bulbs are a reliable choice with a warranty of 12 months, ensuring customer satisfaction and confidence in their long-term performance.

One of the primary application occasions for the Dailiah T10 Automotive LED Lights is during nighttime driving. The intense white light color option provides excellent visibility on the road, ensuring safety and clarity for the driver. In adverse weather conditions, such as fog or heavy rain, the waterproof IP67 rating guarantees that these Car LED Bulbs continue to function effectively, offering reliable illumination when it's needed most.

Furthermore, the Dailiah T10 bulbs are perfect for vehicle owners who wish to customize their cars. The array of emitting colors – blue, green, red, and yellow – allows for personalization of the interior and exterior lighting to match the owner's style or to stand out in car meetings and shows. These Automotive LED Lights are not only about aesthetics but also about signaling and visibility, making them an excellent choice for brake lights, turn signals, and parking lights, where the red and yellow options are particularly useful for compliance with traffic laws and safety standards.

In addition to their use on the road, Dailiah T10 Car LED Bulbs can be installed for various scenarios such as in car showrooms, where the vibrant colors can highlight the features of display vehicles, or during automotive events, where they enhance the ambiance and draw attention to the participating cars. With their robust waterproof design, these bulbs are also suitable for off-road vehicles that may encounter harsh environmental conditions, ensuring that their lights remain bright and functional through mud, water, and dust.

Overall, the Dailiah T10 Automotive LED Lights are not only a practical investment for improved visibility and safety but also an opportunity for car enthusiasts to express their unique style. With a straightforward installation process, long-lasting durability, and a 12-month warranty, these LED bulbs are an excellent choice for a wide range of automotive applications.

Customization:

Experience unparalleled customization with Dailiah's Automotive LED Light Bulbs, the premium choice for your vehicle's lighting needs. Our LED Headlight Bulbs are designed to enhance your driving experience with superior illumination.

Each bulb is meticulously crafted with a Model Number T10, ensuring a precise fit for your automotive lighting requirements. Originating from China, our LED Headlight Bulbs boast top-of-the-line quality and performance.

Equipped with the latest Led Chip technology, the 3570, these bulbs provide a stunning 360 Degrees Beam Angle, delivering flawless light distribution in every direction. With a low energy consumption of just 0.8W/Bulb, Dailiah LED Headlight Bulbs are both efficient and powerful.

Our commitment to quality is backed by a robust 12 Months Warranty, giving you peace of mind with every purchase. Operating at a standard Voltage of 12V, these LED Headlight Bulbs are perfectly suited for a wide range of automotive models and makes.

Choose Dailiah for your automotive lighting solutions and enjoy the perfect blend of style, durability, and performance.

Support and Services:

Thank you for choosing our Automotive LED Light Bulbs. Our commitment to quality and customer satisfaction is paramount, and we are here to provide you with the technical support and services needed to ensure your experience with our product is exceptional.

If you are experiencing any issues with your Automotive LED Light Bulbs, or if you have any questions about the product, please refer to our comprehensive FAQ section on our website. This resource is designed to provide immediate answers to many common questions and concerns.

For installation guidance, our website offers detailed instructions and video tutorials to assist you. These resources are designed to make the installation process as straightforward and efficient as possible, ensuring you can enjoy the benefits of your new LED light bulbs without delay.

In the event that you require personalized support, our knowledgeable technical support team is available to guide you through troubleshooting steps or to provide advice on product usage and maintenance. While we do not offer direct contact information here, you can reach out to our support team through the customer service portal on our website.

Should your Automotive LED Light Bulbs require servicing or you encounter a problem that cannot be resolved through our online resources or technical support, we offer a warranty service for eligible products. Please review the warranty terms and conditions available on our website to understand the coverage and how to initiate a warranty service claim.

We value your feedback and are continually striving to improve our products and services. If you have any suggestions or comments, please feel free to share them with us through the feedback form on our website. Your input is greatly appreciated and helps us to serve you better.

Once again, thank you for choosing our Automotive LED Light Bulbs. We are dedicated to ensuring your driving experience is illuminated with the highest quality lighting solutions. Enjoy the journey!

Packing and Shipping:

Product Packaging for Automotive LED Light Bulbs:

Each LED bulb is securely encased in a custom-fit, shock-absorbent foam insert to prevent damage during transit. The insert is housed within a sturdy, branded cardboard box that is both lightweight and durable. The exterior of the box clearly displays the product name, specifications, and handling instructions. A transparent plastic window is featured on the front of the box to allow for easy product inspection without the need to open the packaging.

Shipping Information for Automotive LED Light Bulbs:

Our LED light bulbs are shipped in their original retail packaging to ensure maximum protection. The boxes are then placed within a larger, corrugated shipping box with additional padding materials to prevent movement and absorb shock. We utilize reliable shipping carriers to ensure that your product arrives on time and in excellent condition. Tracking information is provided for each shipment, allowing customers to monitor their package's progress. Please handle the package with care and inspect the LED bulbs upon arrival for any signs of damage incurred during shipping.

FAQ:

Q1: What type of vehicles are Dailiah T10 LED light bulbs compatible with?

A1: The Dailiah T10 LED light bulbs are designed to be used in a variety of vehicles. However, compatibility can vary depending on the specific make and model of the vehicle. It is best to consult your vehicle's owner's manual or check with the manufacturer to ensure that the T10 bulb size is suitable for your application.

Q2: Can the Dailiah T10 LED bulbs be used for both headlights and interior lights?

A2: Dailiah T10 LED bulbs are generally used for interior lighting, side marker lights, license plate lights, and sometimes for dashboard indicator lights, depending on the vehicle. They are not typically used for headlights. Please check your vehicle's bulb requirements to see where the T10 LED bulbs can be applied.

Q3: How long do the Dailiah T10 LED light bulbs last?

A3: LED light bulbs are known for their longevity. Dailiah T10 LED light bulbs have a longer lifespan compared to traditional halogen bulbs. While the exact life expectancy can vary based on usage and other factors, LED bulbs typically last many thousands of hours. It's always a good idea to refer to the product specifications for more detailed information.

Q4: Are Dailiah T10 LED light bulbs easy to install?

A4: Yes, Dailiah T10 LED light bulbs are designed for easy installation and are usually plug-and-play. This means they fit into the existing headlight or bulb holder without the need for additional wiring or modifications. However, it's important to ensure the vehicle is turned off and the lights are cool before attempting installation.

Q5: Are Dailiah T10 LED light bulbs energy-efficient?

A5: Yes, Dailiah T10 LED light bulbs are more energy-efficient than traditional halogen bulbs. They require less power to operate, which can lead to a reduction in energy consumption and potentially improve the vehicle's electrical system efficiency.
