Product Description

Product Description:

These Atmospheric Decoration Lights are equipped with a remote control that allows you to easily adjust the brightness and color of the lights. The remote control is available in both APP and Remote Control, so you can choose the control method that suits you best. You can easily switch between different lighting modes, adjust the brightness, and choose from a variety of colors to match your mood or the occasion.

The Interior Atmosphere Illumination is designed to last for a long time, with a lifespan of up to 50,000 hours. This means that you can enjoy these lights for years to come without worrying about replacing them. The lights are also energy-efficient, consuming very little power and reducing your car's battery consumption.

The Length Of Strip is 110cm, making it suitable for most car models. The lights can be easily installed in your car, with no special tools or wiring required. You can simply stick them to any surface inside your car and connect them to the power source using the USB cable provided.

The Input Voltage of the Car Interior Atmosphere Lights is DC5V-12V, making it compatible with most car models. You can connect the lights to your car's USB port or cigarette lighter socket using the USB cable provided. The lights are designed to be safe and reliable, with a built-in short circuit protection and overvoltage protection.

In summary, the Car Interior Atmosphere Lights are a must-have for anyone who wants to add a touch of elegance and style to their car's interior. These Atmospheric Decoration Lights are easy to install, energy-efficient, and designed to last for a long time. With a remote control that allows you to easily adjust the brightness and color of the lights, you can create a cozy and comfortable atmosphere inside
