Our Product Introduction

BRIGHTNESS UP TO 16000LM

Using the excellent 7545 high-brightness chip, it provides a light output of 16000LM, which is more than 300% brighter than halogen lamps, making your driving safer.

High thermal conductivity aviation aluminum cooling system

The high thermal conductivity aviation aluminum cooling system can quickly cool the lamp body temperature. The advanced automatic temperature regulator provides instant cooling effect and prolongs the service life to 30000 hours.

CAN REPLACE XENON LAMPS

F12 has a longer life than xenon lamps, up to 30,000 hours, wider and farther illumination, instant start without delay, no need to install a stabilizer, more space-saving.
